At Ponies and Kids, we stress safe horsemanship and proper procedures at all times.

Our lessons are customized around your child’s experience, level of riding skill and needs. We accept all riders from beginners to advanced students.

Each student will learn the basics of natural horsemanship. This will create a solid foundation for the rider’s confidence.

Lessons will introduce beginners to the exciting world of horses. They will learn the basics of grooming, saddling, and riding their assigned horse. More advanced students will be challenged and excited about their continued learning experiences with new riding techniques.

All riders will be expected to follow our techniques and show respect to our stable rules and guidelines.

**Ponies and Kids is a place where respect is discovered, life skills are learned and applied, and where self-esteem grows and physical activity is inescapable.**

Equestrian facilitated activities are an integral part of a prevention program that helps youth holistically and teaches them life skills that will provide them with greater resilience both physically and emotionally.
